Education

- 2013–Present **Ph.D. Candidate**, *University of Toronto*.
Mobile Robotics, Computer Vision, Machine Learning, Sensor Fusion
- 2010–2013 **B.Sc.(Maj.) with Distinction**, *University of Manitoba*, GPA: 4.31/4.50.
Physics, Computer Science
- 2006–2010 **B.Comm.(Hons.) with Distinction**, *University of Manitoba*, GPA: 4.13/4.50.
Accounting, Finance

Research Experience

- 2013–Present **Ph.D. Candidate**, *University of Toronto Institute for Aerospace Studies*.
Thesis: Learning models of appearance change for long-term visual navigation.
Supervisor: Prof. Jonathan Kelly
- 2013 **Research Assistant**, *Argonne National Laboratory - Physics Division*.
Participated in experiments with the Argonne Tandem Linac Accelerator System (ATLAS).
Supervisors: Prof. Kumar Sharma and Dr. Jason Clark
- 2012 **Research Assistant**, *University of Manitoba - Physics and Astronomy*.
Developed astrophysical modelling software.
Supervisor: Prof. Jason Fiege

Teaching Experience

- 2018 **Course Instructor**, *University of Toronto*.
AER 521 - Mobile Robotics and Perception
- 2015–2017 **Teaching Assistant**, *University of Toronto*.
ROB 301 - Introduction to Robotics
AER 521 - Mobile Robotics and Perception

Major Grants and Awards

- 2015–2018 **NSERC Postgraduate Scholarship - Doctoral Program**, *University of Toronto*.
- 2014–2015 **Kenneth Molson Fellowship**, *University of Toronto*.
- 2014–2015 **NSERC Canada Graduate Scholarship - Master's Program**, *University of Toronto*.
- 2012, 2013 **NSERC Undergraduate Student Research Award**, *University of Manitoba*.
- 2011, 2012 **Centennial Scholarship in Physics**, *University of Manitoba*.

Volunteer Work

- 2016-2017 **President, Aerospace Students' Association.**
The Aerospace Students' Association represents graduate students at UTIAS and organizes athletic, social, academic and professional events.
Previously: Social Coordinator (2015-2016)
- 2016-2017 **Co-founder/Aerospace Representative, GECoS.**
The Graduate Engineering Council of Students acts as a forum for all Engineering Graduate Student Associations at UofT to collaborate and represent Engineering graduate students.
- 2016, 2017 **Student Member, UTIAS Student Experience Committee.**
The SEC gathers data about the UTIAS student body's experiences at the Institute and makes a report to the Director summarizing the data and suggesting improvements.
- 2014-2017 **Re-founder/Director, SEDS-Canada.**
Students for the Exploration and Development of Space (SEDS) is an international group of student-run organizations dedicated to promoting public interest in space.

Professional Affiliations

- Student Member, IEEE, IEEE Young Professionals, IEEE Robotics and Automation Society.**
- Student Member, Canadian Image Processing and Pattern Recognition Society (CIPPRS).**

Publications

- [1] L. Clement and J. Kelly, "How to train a CAT: Learning canonical appearance transformations for robust direct localization under illumination change," *Submitted to the IEEE Robotics and Automation Letters and IEEE International Conference on Robotics and Automation (RA-L/ICRA)*, under review, May 2018.
- [2] V. Peretroukhin[†], L. Clement[†], and J. Kelly, "Inferring sun direction to improve visual odometry: A deep learning approach," *International Journal of Robotics Research (IJRR)*, invited, under review, 2017, [†]Equal contribution.
- [3] —, "Reducing drift in visual odometry by inferring sun direction using a bayesian convolutional neural network," in *Proceedings of the IEEE International Conference on Robotics and Automation (ICRA)*, Singapore, May 2017, [†]Equal contribution.
- [4] J. Lambert, L. Clement, M. Giamou, and J. Kelly, "Entropy-based Sim(3) calibration of 2D lidars to egomotion sensors," in *Proceedings of the IEEE International Conference on Multisensor Fusion and Integration for Intelligent Systems (MFI)*, Baden-Baden, Germany, Sep. 2016, Best Student Paper Award.
